A soldier in a dark environment, illuminated by a night vision device, demonstrating the use of IRR fabric. The soldier is wearing a helmet and a jacket, and is holding a night vision device. The scene is dark, with the soldier's gear and the surrounding environment appearing in shades of green and black. The soldier is positioned in the upper right quadrant of the frame, looking down and to the left. The background is a dark, wooded area with a tree trunk visible on the left side. The overall atmosphere is mysterious and tactical.

IRR fabric

Military anti-infrared fabrics, adopt the special process to adjust the infrared reflection value, so that **object can't be detected** by night vision devices and thermal imager. Its excellent and stable concealment effect can effectively protect military safety for a long time.

ABOUT SAICOU

SINCE 2007

Established in 2007.
we have 15 years export business experience
for militari & police equipment.

STATE-OWNED

As state-owned company, we have special
export authority of militari & police equipment
by the Chinese government.

SERVICE

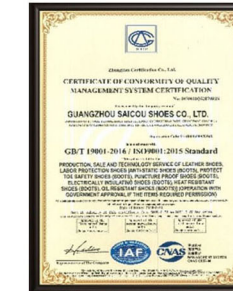

Our main business is government
procurement & tender bidding. We offer
production & shopping solutions for
OEM & ODM.

CERTIFICATE

For testng, we work with SGS ,ITS, BV &
TUV, NIJ & V50 standard testing are for the
ballistic products. We also heve
ISO9001&ISO14001 certificates.

Established since 2007, as a sole-venture subsidiary of China Saicou since 2007 Crup Co., Ltd., we are a franchised professional supplier of complete series of military supplies and logistic equipment with the special military export authorization of the PRC State Council.

Located in Guandzhou and with hundreds of professional factories covering all kids of products. We could suppli best servise, support and products and offer good suggestion and quick solutions. Embracing the hundreds of military manufactures under Saicou since 2007 as its solid base. we stick to the policy of granting equal weight to trade and enterprises development while majoring in import and export business. We established succercocful business relationship with customers in more than sixti countries and regions. We believe that we could establish good business relationship and mutual benefit through our sincere cooperatioun.

FOOTWEAR PRODUCTION LINE

PROCESS CEMENT, GOODYEAR, INJECTION, MOLDING

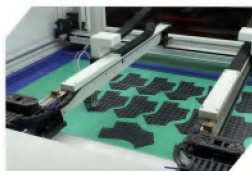

We have more than 15 years of experience in producing and exporting various military boots, desert boots, jungle boots, outdoor shoes, safety shoes and police shoes.

- CAPACITY**
- + Cement > 30000 Pairs/month
 - + Goodyear > 80000 Pairs/month
 - + Injection > 80000 Pairs/month
 - + Molding > 80000 Pairs/month

ADVANCED WORKSHOP

CUSTOMIZATION

WATERPROOF
Waterproof material that prevent water from entering and passing through

WATER RESISTANT
Material that resists the penetration of water through the fabric.

DURABLE WATER REPELLENT
A polymer substance applied to the face-fabric that helps to repel water, oil and stains, and dries quicker.

MOISTURE WICKING
Moisture-wicking fabric pulls sweat away from the skin to keep you dry and comfortable.

BREATHABLE
A fabric that allows the passage of air and moisture to keep you comfortable.

AIR-FLOW SYSTEM
Constructed with air-flow mesh back panels to maximize ventilation and back support.

360° VENTILATION AND DRAINAGE
Constructed with air-flow mesh back panels and soles with drainage holes to maximize ventilation for fast-drying lining

LAPTOP COMPATIBLE
Product with built-in compartment for laptops

ANTI-INFRARED.
Fabric can be anti-infrared with finishing for different countries and region. Military technology.

ANTI-MICROBIAL
Anti-microbial material inhibits the growth and reproduction of microorganisms or bacteria.

3M Thinsulate. Waterproof synthetic insulation has thermal insulation properties and does not let moisture through.

THERMAL INSOLE.
5 mm. wool fabric insole to keep your warm when you moving.

SHOCKPROOF OUTSOLE.
the plastic midsole reduces shock load.

ANTI-STATIC
Anti-static material inhibits buildup of static electricity.

NATURAL STRETCH
Stretchable fabric for better articulation and/or gussets to maximize mobility and movement.

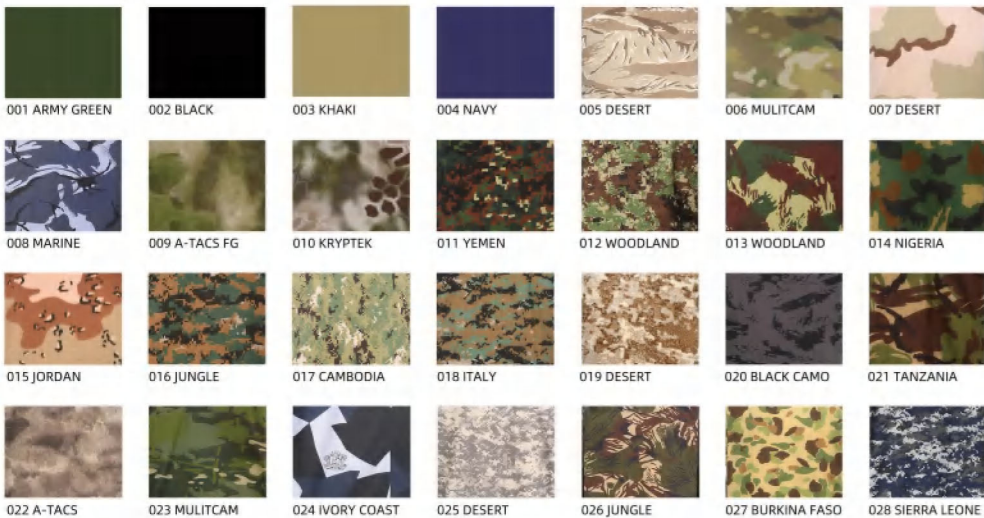

HYDRATION COMPATIBLE
Product with integrated hydration compartment to carry a hydration bladder.

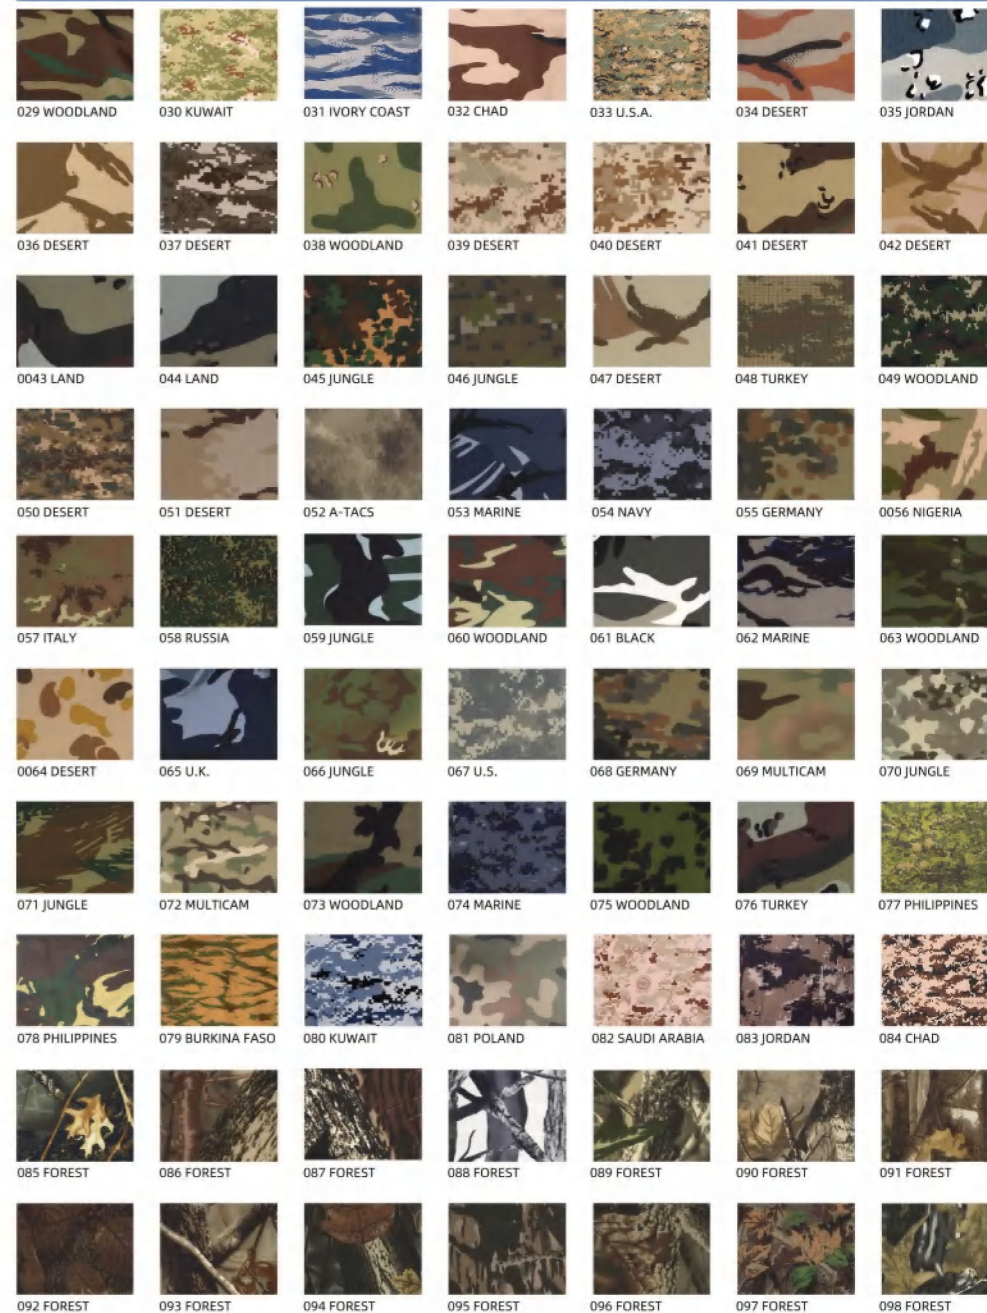

CONCEALED CARRY
Designed for more discreet or concealed method of carrying firearm.

COLOR KEY

COLOR KEY

INJECTION PROCESS

SC-9068L SIZES / 36-47

With injection process by Desma*PU injection machine, the upper and outsole are jointed directly without cement. PU layer provides comfortable wearing experience and rubber layer keeps high abrasion, Anti slip* and and flexing resistance function. Water resistant, Thinsulate lining, water-repellent upper Materials with IIR can be made.

Features:

- + 1,8-2,0mm thickness breathable Suede or Nubuk leather
- + Anti Slip* rubber + PU 2-layer material outsole
- + 1050D Cordura* nylon oxford waterproof fabric
- + Waterproof breathable membrane
- + 400 gr. Thinsulate lining
- + Soft removable 5 mm Wool fabric/EVA Thermal insole
- + Fiberglass shank for extra support
- CLR: +Solid

MILITARY BULLETPROOF VEST

BPV01 SIZES / M, L, XL

Military bulletproof vest generally provides protection for front, back, lateral, neck, shoulder and groin. Soft panels provide high and stable ballistic performance. With MOLLE system webbings, magazines pouches and bags can be attached for tactical function. Plates are inserted to upgrade the ballistic level.

- FEATURES**
- + NIJ 0101.06 Level IIIA, III, III+, IV, IV+
 - + Polyester, nylon oxford fabric
 - + Front, back, lateral, neck, shoulder, groin protection
 - + DuPont Kevlar®, Aramid, PE
 - + Ceramic, steel plates
 - + Stab-proof function available

- CLR**
